

## VERMONT PUBLIC UTILITY COMMISSION SEEKS UTILITIES ANALYST

The Vermont Public Utility Commission seeks to fill a vacant Utilities Analyst position. The Public Utility Commission regulates electric, energy efficiency, natural gas, telecommunications and water utilities in Vermont. Issues decided by the Commission include, among others: siting of utility facilities and non-utility renewable generation facilities; utility rates and other financial matters; and renewable energy, energy efficiency and telecommunications policies.

The Utilities Analyst position offers a unique chance to participate in Vermont's regulatory process that implements policy decisions which often have statewide, regional, and national significance. See <http://puc.vermont.gov/> Specific duties include reviewing utility-related filings; drafting proposed rules; assisting in the development of Commission policy on utility-related matters; presiding over contested cases as a quasi-judicial hearing officer, with responsibility to identify significant issues; conducting thorough hearings in a fair, professional, judicious manner; preparing comprehensive proposed decisions that resolve all critical issues; and assisting the Commission in evaluating the proposed decisions. The analyst would also advise the Commission in cases that the Commission hears directly, with responsibility to identify, research, and analyze significant issues, manage the procedural elements of the cases, work as part of a team, and draft the Commission's orders.

Judicial temperament, excellent writing and analytical skills are required. A strong candidate will have prior experience in facility siting and permitting, utility regulation, or related areas, including the telecommunications or energy industries. The Commission also highly values experience with financial or business decision-making and public policy analysis and formulation. Experience with financial analysis is desirable.

Candidates must have a Bachelor's degree and at least two years professional experience in accounting, auditing, economic or financial analysis, business or public administration, permitting, planning, physical science, engineering, or an environmental or natural resources field. Graduate work in related fields may be substituted for the required experience on a semester-for-six-months basis.

Salary commensurate with applicant's background and experience in accordance with the Public Utility Commission's pay plan. The pay plan can be found at <http://humanresources.vermont.gov/sites/dhr/files/Documents/Compensation/DHR-Public Service Commission Pay Plan.pdf>

*The State of Vermont offers an excellent total compensation package. To apply, submit resume, cover letter, and writing sample to: Business Manager, Vermont Public Utility Commission, 112 State Street, 4<sup>th</sup> Floor, Montpelier, VT 05620-2701, or via e-mail to [puc.businessmanager@vermont.gov](mailto:puc.businessmanager@vermont.gov) no later than May 7, 2018.*
