

Application for Authorization to Transfer a Net-Metering Certificate of Public Good

Eligibility. This form is intended for situations where ownership of the net-metering system is changing independent from the ownership of the property on which the net-metering system is constructed. If you are transferring a net-metering Certificate of Public Good (“CPG”) because of a change in ownership of both the property hosting the net-metering system and the system itself, please use the Board’s Notice of Transfer Form, which is available at <http://puc.vermont.gov/document/transfer-cpg-form>.

How to file this form. Please send the completed application to the Public Utility Commission, 112 State Street, 4th floor, Montpelier, VT 05620-2701. Copies of the application also must be sent to:

- the Department of Public Service, 112 State Street, 3rd floor, Montpelier, VT 05620-2601;
- the Vermont Agency of Natural Resources, Office of Planning and Legal Affairs at 1 National Life Drive, Davis 2, Montpelier, VT 05620-3901, or by e-mail to ANR.Notice@vermont.gov;
- the host landowner; and
- the applicant's utility.

Failure to complete all applicable sections of this application may result in delay or denial.

What happens after I file this form? Upon receipt of the completed form by the Public Utility Commission, the Department of Public Service, and your electric company, a ten-business day review period will commence.

If no objections are filed with the Public Utility Commission before the 11th business day after the form was received by the entities listed above, and unless otherwise ordered by the Public Utility Commission, then the application is deemed approved. No further correspondence will be required.

If an objection is filed within the ten-business day review period, then the application will not be deemed approved. The transfer will not be approved without further action by the Public Utility Commission. In this situation, the Current CPG Holder and the Proposed CPG Holder should await further instructions from the Public Utility Commission in this situation.

Required Certifications

The Current and Proposed CPG Holders shall make the following respective certifications. Making false or misleading statements on this application is subject to penalties under 30 V.S.A. § 30 and/or revocation of any approval granted.

The Current CPG Holder declares, under the pains and penalties of perjury, that:

- (1) having exercised due diligence and made reasonable inquiry, the information which I have provided on this form and any attachments is true and correct to the best of my knowledge;

- (2) the net-metering system authorized by the CPG for which this application seeks approval to transfer has not been modified or changed in any material manner from the originally approved project and is in all material respects identical to the originally approved system;

- (3) I am in compliance with all terms and conditions of my CPG;

- (4) a copy of this complete application will be sent to my electric utility, the host property owner, and the Department of Public Service as required by this form.
