

Clean Heat Standard Technical Advisory Group  
Tuesday, 26 November 2024, 10:30am-1:00pm ET  
Agenda (Draft)

Meeting Link: <https://cbi-org.zoom.us/j/89637405423>

10:30	<b>Welcome &amp; Review of agenda</b> <b>Review and approval of <a href="#">11/14/24 minutes</a></b>	Rick Weston, Chair
10:35	<b>Updates from the PUC</b>	Deirdre Morris, PUC
10:40	<b>Opinion Dynamics' Draft #2 TRM and related worksheets</b> <ul style="list-style-type: none"><li>• TAG preliminary questions and comments to be shared with Opinion Dynamics; discussion will continue at the next TAG meeting</li></ul>	Chair
11:20	<b>Review of Installed Clean Heat Measure Credit Characterizations</b> ( <i>memo circulated in advance</i> )	Ken Jones
11:40	<b>Break</b>	
11:50	<b>Translating CIs to credit values<sup>1</sup></b>	Rick W., Ken J.
12:15	<b>Clean Heat Measures and Energy Savings<sup>2</sup></b> <ul style="list-style-type: none"><li>• Presentation at 11/14 meeting will be circulated in advance</li><li>• Discussion of TAG's takeaways and what to convey to the PUC</li></ul>	Chair, Ben Plotzker and Emily Roscoe, EVT
12:45	<b>Public Comment</b>	
12:55	<b>Agenda items for next TAG meeting currently scheduled for Dec. 12th</b>	Chair
1:00	<b>Close</b>	

---

<sup>1</sup> Relates to TAG tasks in § 8128(a)(2) and (5): "(2) establishing and revising the clean heat credit value for different clean heat measures; ... (5) establishing credit values for each year over a clean heat measure's expected life, including adjustments to account for increasing interactions between clean heat measures over time so as to not double-count emission reductions;"

<sup>2</sup> Relates to TAG task in § 8124(d)(2): "(2) Of their annual requirement, each obligated party shall retire at least 16 percent from customers with low income and an additional 16 percent from customers with low or moderate income. For each of these groups, at least one-half of these credits shall be from installed clean heat measures that require capital investments in homes, have measure lives of 10 years or more, **and are estimated by the Technical Advisory Group to lower annual energy bills**. Examples shall include weatherization improvements and installation of heat pumps, heat pump water heaters, and advanced wood heating systems. The Commission may identify additional measures that qualify as installed measures." [emphasis added]
